Is Cash still accepted?
Yes, cash (exact change) is still accepted; but, paying with a DiriGo pass instead of cash include these benefits - 90 Minute Pass and Fare-Capping.

90-Minute Pass
A passenger using a DiriGo Pass mobile app or smartcard to ride can scan their phone or tap their card and ride for 90 minutes.

No need to ask for a transfer. Passengers paying cash will need to pay again when boarding a second bus.

Fare-Capping
Fare capping allows for frequent travel and financial flexibility. It provides the benefits of a multi-ride discounted pass without having to pay up-front costs. When you use your DiriGo Pass smartcard or mobile app you can load small amounts of value into your account whenever you want.

Riders get credit for every trip they take until they reach a daily or monthly “fare cap.” After reaching the cap all rides are free for the month or day. This “pay as you go” approach improves affordability and equity in the cost of using transit. It allows all riders using the DiriGo Pass smartcard or the mobile app equal access to discounts. Riders pay only for what they use. Click here to learn more about fare capping and what the lights and sounds are like on the bus.

Example on all Local service:
With a DiriGo Pass smartcard or DiriGo Pass Mobile App, you will never spend more $6 per day OR $60 per month as a regular fare rider on local bus services.
